GENERAL INFORMATION

About UWC

Founded in 1962, UWC (United World Colleges) is a global education movement that makes education a force to unite people, nations and cultures for peace and a sustainable future. UWC is comprised of schools and colleges in 18 countries, with national committees and selection contacts in more than 155 countries. UWC fosters a lifelong commitment to social responsibility, and to date has inspired a network of 60,000 alumni who believe it is possible to work for positive change.

The majority of students attending UWCs are selected by UWC national committees. In support of the belief that education should be independent of a student's ability to pay, 70% of national committee selected IB Diploma students receive full scholarships. The UWC movement places a high value on experiential learning, outdoor education, service and other cultural understanding, alongside the academically challenging International Baccalaureate Diploma Programme (IBDP).

About UWC ISAK Japan

UWC ISAK Japan is Japan's only full-boarding international high school and the newest member of the United World Colleges movement. Following the Japanese school system, UWC ISAK is a three-year high school, with all students in grades 11 and 12 following the IB Diploma Programme curriculum. The school is accredited by the Japanese Ministry of Education (MEXT), and all graduates receive a Japanese high school diploma. Currently, 187 students from 73 countries attend UWC ISAK Japan, with 70% of students receiving full or partial need-based scholarship support. 30% of enrolled students are Japanese, with the remaining 70% coming from homes outside of Japan.

Location

Karuizawa is located in Nagano Prefecture, home to the 1998 Winter Olympics and fondly referred to as the "Roof of Japan." Karuizawa has been attracting an international mix of visitors since the late nineteenth century. The mountainous climate keeps Karuizawa cool and comfortable during Japan's summer months, making it a popular escape from Tokyo's heat and humidity. Karuizawa experiences four seasons with regular snow in the winter which generally lasts from early December through February. Monthly temperatures average between 21 and -5 throughout the year.

While the full-time population of Karuizawa is fewer than 20,000, the population of the town increases dramatically during the summer tourist season. From Tokyo, it takes approximately 70 minutes to reach Karuizawa station on the Shinkansen (Japanese bullet train).

Karuizawa is a favorite destination for outdoor enthusiasts and offers year-round recreation including hiking, cycling, tennis golf and skiing. In addition, a vibrant arts & crafts scene includes art galleries and museums, a performing arts center, a symphony hall, and a community symphony. There are also many good restaurants with wide ranging cuisines, a large upscale outlet mall with designer shops, a variety of onsen hot springs and a local volcano, Mt. Asama.

UWC ISAK Japan is located on the outskirts of Karuizawa in a quiet residential community, and the school is not within easy walking distance to a train station or a large supermarket. Schooling options for faculty children are limited to the local public schools where all instruction and communication is in Japanese. We are not able to guarantee admission to UWC ISAK for faculty children in grades 10-12 or to guarantee scholarships if faculty children are admitted.
